-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 4-13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

- a. In claim 4, applicant recites "cooperating means" between the guide and the carriage, and "rotatable means" provided to abut the guide in order to establish a rolling contact when the carriage is displaced relative to the guide. Applicant argues in the response filed January 28, 2008, that the external grooves recited in claim 5 are the cooperating means. However, the external grooves are in and part of the guide and therefore can not be between the guide and the carriage. Therefore, it would appear that the rotatable means which are between the guide and the carriage would have to be the cooperating means; and thus the "cooperating means" recited as being between the guide and the carriage are not properly disclosed in the specification when the rotating means are not considered to be the cooperating means.

Allowable Subject Matter

3. Claims 1-3 are allowed.

Response to Arguments

4. Applicant's arguments, filed January 28, 2008, with respect to claims 1-3 have been fully considered and are persuasive. The 35 USC 103 rejection of claims 1-3 has been withdrawn.
5. Applicant's arguments filed January 28, 2008, with respect to claims 4-13 have been fully considered but they are not persuasive.
 - a. Applicant's arguments have been discussed above.

Conclusion

6. Claims 4-13 have still not been further treated on the merits since they are not fully understood.
7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
